Load and outreach

MINIMIZED DOWNTIME

with easy serviceability of the jib crane and hoist.

Adapts to your facility

IMPROVED

SAFETY

with standard on/off safety

switch with pillar jibs.

KONECRANES 500 kg

Konecranes jib cranes are suitable for almost any kind of workstation, from small workshops to large factory assembly lines, storage areas and loading bays. Whether you need to lift a single piece of equipment or add capacity to an entire process, a wide range of options provides solutions for most industrial facilities.

Imagine a jib crane with a load capacity of up to 2,000 kg and a slewing motion that can reach 300 degrees with a pillar jib. You have several different ways to fix the jib to the wall or the floor and can choose from a broad selection of hoist units, such as electric chain hoists, pneumatic lifting devices and manual hoists.

A longer lifecycle

Konecranes Jib Cranes

MOTORIZED TROLLEY

WITH EASY LOAD

HANDLING

is ideal for heavier and larger

loads.

Jib cranes are an integral part of any plant process and require both speed and accuracy. The flexibility and durability of this crane allow you to keep using it in other parts of your facility when your work environment changes. They are also easy to install and relocate, reducing the cost of your downtime, and giving your jib crane a long and productive lifecycle.

BENEFITS

- Wide range of options provides solutions for most industrial facilities
- Easy installation and relocation reduce downtime
- Easy to use, jibs allow fast, safe and accurate load handling
- Advanced ergonomic design enhances the safety and comfort of your operators, maximizing work efficiency
- Easy serviceability and low maintenance keep your jib crane in full working order and your processes running
