

CXT EXPLORER

Lift in the great outdoors

Ready to lift in a few hours

You can easily transport the CXT Explorer together with another ISO shipping container. Place the containers on the ground, build the supporting steel structure on top of the containers and secure it with twistlocks. Add the crane and plug into a power grid or a generator. Now you have an industrial overhead crane in just a few hours after arriving on-site. When you want to relocate the crane, just pack it back into its containers and move out.

One crane – dozens of applications

Konecranes CXT Explorer is an affordable, robust and portable solution for all kinds of lifting needs. This crane follows you practically wherever you need to lift up to 11,000 LBS (5 Metric tons). We have put standard lifting equipment into one ISO shipping container to bring you a predesigned package with a carefully-selected range of standard functions and optional extras.

Mobile

You can easily transport the CXT Explorer for inside or outside applications. It only takes a few hours to set up or dismantle the crane.

Safe

A stable and reliable crane that makes your lifting safer and more accurate, and lowers the risk of damage or collision.

Primary applications

- Working with large or heavy materials
- Maintaining heavy machinery or equipment
- Loading and unloading tasks
- Moving industrial equipment, vehicles and other items

Complete

The CXT Explorer is sold and delivered as a predesigned package, so the delivery process is fast. All of the crane components arrive at your site in two standard ISO shipping containers.

Service

Comprehensive service programs, spare parts and fast service response save you time and money.

Customer areas

- Construction
- Mining
- Vehicle maintenance
- Agriculture
- Natural gas compressor stations
- Oil exploration, onshore and offshore drilling

FACTS AT GLANCE

- Lifting capacity up to 11,000 LBS (5 Metric tons)
- Suitable for use in harsh conditions with temperatures ranging from -4 to +122 degrees Fahrenheit, or -20 to +50 degrees Celsius
- Span 16.4 FT (5 Metres)
- Height of lift 16.4 FT (5 Metres)
- Runway length 20 FT (6 Metres)

OVERHEAD CRANE

- CXT electric overhead crane (1, total weight approx. 2755 LBS / 1250 KG)
- Equipped with electric hoist
- 2 speed contactor controlled lifting
- 1 speed contactor controlled travelling movements

STEEL STRUCTURE

Total weight approx. 2640 LBS / 1400 KG

20 FT (6 METRES) STANDARD ISO SHIPPING CONTAINER

On any solid surface and in any location, the crane is reliably supported by two sturdy shipping containers.

Konecranes is a world-leading group of Lifting Businesses™, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. Konecranes provides productivity enhancing lifting solutions as well as services for lifting equipment of all makes. In 2021, Group sales totaled EUR 3.2 billion. The Group has around 16,600 employees in 50 countries. Konecranes shares are listed on the Nasdaq Helsinki (symbol: KCR).
